

I have been informed that the FCC is considering dropping all FM translator stations. I strongly object to this notion. I listen to K-love and Air-1 radio stations. Both of these stations are nationwide and would be banished if the proposal is approved. These stations are an asset not only to my community, but also to the entire nation. They help to unite the country under a common faith. A local christian radio station could not accomplish this. These radio stations keep christians informed on national news, concerts, and the bible with their verse-of-the-day. All you have to do is listen to either of these stations for just a few minutes to notice the differences these stations make in people's lives. Testimonies run on-air in place of commercials letting the world know what the radio station has done to bring a person to God. Not to mention the possible thousands of prayer requests each of the stations receive every week. I strongly encourage that the FCC take all of this into consideration before making the final decision and to consider the impact it would have on so many people's lives.
